Michael

Many thanks for confirming the key points of our conversation. We will work with the contractor to resolve the issues with the flintwork.

Regards

Tony

Dear Tony,

Further to our telephone conversation this morning it has been agreed that Ibstock brown brick is acceptable on the new building and that feature bricks will be used on the outward looking elevations.

It was resolved that you would seek an alternative flint panel with more flint and less mortar, which would be more in keeping with construction techniques utilised in West Sussex.

I look forward to receiving details of the alternative flint panel.

We also agreed that planning permission is required for any roof plant and you are going to prepare and submit the requisite application.

Finally, it was agreed that once work had commenced on the student accommodation you will provide additional information for the provision of a car parking agreement for students on site.

Regards,

Michael Eastham
