Subject: BR/214/16/DOC - University of Chichester, Upper Bognor Road, Bognor Regis

Hi Daniel,

CONDITION 12 – WATERCOURSE MANAGEMENT (BR54/16/PL)

A DOC application was submitted to ADC on 26th August 2016 for a number of conditions, including Condition 12 on watercourse maintenance at the Technology Park at the University of Chichester's Bognor Regis Campus. Unfortunately, Condition 12 was not registered on Ocella when the information was submitted by the applicant in August 2016, consequently condition 12 was not discharged and was missed of the approval letter which was sent out to the applicant. This oversight came to light in an email that I received on 22nd June 2017 from the applicant asking ADC why Condition 12 had not been discharged along with all of the other conditions.

The information relating to Condition 12 was saved in Ocella so I forwarded it to Paul Cann, the Drainage Engineer at ADC and I received "no objection" from him on 28th July 2017.

I have drafted the following record in Ocella for Condition 12 for signing off:

"The details included with the University of Chichester EDT Park - Ordinary Water Course Maintenance (25/08/2016) relating to arrangements for the future access and maintenance of any watercourse or culvert (piped watercourse) crossing or abutting the site is hereby approved. Condition 12 is Discharged in part and excludes the north-south culvert".

Thanks,

Michael
