For the attention of Planning Department

Dear Sirs,

Proposal Installation of 3 x wall mounted security lights to cover car park to rear of property
Location HSBC, 45 High Street, Bognor Regis, West Sussex, PO21 1RU

Our planning application is in relation to the installation of a new car park lighting to the HSBC Bank and as such we do not believe a Design and Access Statement necessarily applies to this application but we would welcome your comments on this.

There are no access issues as such for the application as no alterations are being made to buildings or access routes for either staff or members of the public.

The area being covered by the lighting is currently used as a car park area to the rear of the branch for bank staff only. The lighting is being proposed as security to the staff that use this area as it is currently unlit and poses a security issue to staff using the area after dusk.

We hope the above is as required but if further details are needed please do not hesitate to contact us and we will assist in any way needed to allow the smooth running of this application.

Yours sincerely
For and on Behalf of TD Emmett Limited

Adrian Lloyd
