

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management
Procedure) (England) Order 2015
Application for Planning Permission
DECISION NOTICE

Application Ref: BR/222/18/PL

1 To Addressee

Ms C Sutton
 MH Architects Limited
 Ground Floor
 Bicentennial Building
 Southern Gate
 Chichester, West Sussex
 PO19 8EZ

2 Site Address

Land adjacent to Community Centre
 Westloats Lane

 PO21 5JZ

3 Description of Development

Erection of 4no. 2 bedroom dwellings with associated parking & landscape.

In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to the following conditions

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby approved shall be carried out in accordance with the following approved plans

Drawing 2018-D1414-100 "Site Layout, Levels and Drainage";
 Drawing 70 Rev B "Street Scene and Site and Location Plans"; and
 Drawing 71 Rev B "Plans and Elevations".

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy D DM1 of the Arun Local Plan.

- 3 Development shall not commence until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority.
- The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, the recommendations of the SUDS Manual produced by CIRIA.
- Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage.
- No building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.
- Reason: To ensure that the proposed development is satisfactorily drained in accordance with policy W DM3 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition because it would not be possible to implement a surface water drainage scheme once development had commenced.
- 4 No development shall be commenced until such time as plans and details have been submitted to and approved in writing by the Local Planning Authority showing the site set up during construction. This shall include details for all temporary contractors' buildings, plant and stacks of materials, provision for the temporary parking of contractors vehicles and the loading and unloading of vehicles associated with the implementation of this development. Such provision once approved and implemented shall be retained throughout the period of construction.
- Reason: To avoid undue congestion of the site and consequent obstruction to access in accordance with policies D DM1 and T SP1 of the Arun Local Plan and the National Planning Policy Framework. This is required to be a pre-commencement condition because it is necessary to have the site set-up agreed prior to access by construction traffic.
- 5 Development shall not commence until full details of the proposed measures to be undertaken to divert the existing public sewers have been submitted and approved in writing by the local planning authority (in conjunction with Southern Water). None of the dwellings shall be occupied until the measures in respect of diverting the sewer have been completed in accordance with the agreed details.
- Reason: To ensure that the proposed development does not result in any damage to the existing foul sewer in accordance with policies W DM1 and W DM3 of the Arun Local Plan. This is required to be a pre-commencement condition because new development has the potential to cause damage to any sewer crossing the site.

- 6 No development above damp proof course (DPC) level shall take place unless and until a colour schedule of materials and finishes to be used for external walls and roofs of the proposed building have been submitted to and approved by the Local Planning Authority and the materials so approved shall be used in the construction of the building.
- Reason: To enable the Local Planning Authority to control the development in detail in the interests of amenity and the character & appearance of the surroundings by endeavouring to achieve a building of visual quality in accordance with policy D DM1 of the Arun Local Plan.
- 7 No part of the development shall be first occupied until pedestrian visibility splays of 2 metres by 2 metres have been provided either side of the proposed site vehicular access onto Westloats Lane in accordance with plans and details to be submitted to and approved in writing by the Local Planning Authority. These visibility splays shall thereafter be kept free of all obstructions over a height of 0.6 metre above adjoining carriageway level or as otherwise agreed.
- Reason: In the interests of road safety and in accordance with policy T SP1 of the Arun Local Plan.
- 8 No part of the development shall be first occupied until the car parking has been constructed in accordance with the approved site plan. These spaces shall thereafter be retained at all times for their designated purpose.
- Reason: To provide adequate on-site car parking space for the development in accordance with policy T SP1 of the Arun Local Plan.
- 9 The secure cycle storage shed shall be implemented in accordance with the approved drawings and thereafter retained in perpetuity unless otherwise agreed in writing with the local planning authority.
- Reason: To provide alternative travel options to the use of the car in accordance with current sustainable transport policies and policy T SP1 of the Arun Local Plan.
- 10 The bin store shall be implemented in accordance with the approved drawings and thereafter retained in perpetuity unless otherwise agreed in writing with the local planning authority.
- Reason: To protect the amenities of nearby residents in accordance with Arun Local Plan policy WM DM1.

- 11 Prior to occupation of any of the dwellings, a scheme for the provision of facilities to enable the charging of electric vehicles to serve the approved dwellings shall be submitted to the local planning authority for approval and thereafter implemented in accordance with the approved details and the charge points shall thereafter be permanently retained and maintained in good working condition.

Reason: New petrol and diesel cars/vans will not be sold beyond 2040, and to mitigate against any potential adverse impact of the development on local air quality, in accordance with policy QE DM3 (c) of the Arun Local Plan, the Arun District Council Electric Vehicle Infrastructure Study (November 2017) and the National Planning Policy Framework

- 12 None of the new dwellings shall be occupied unless and until the applicant has submitted a scheme for approval by the Local Planning Authority to demonstrate that the development will achieve energy efficiency measures. The approved scheme shall thereafter be implemented prior to occupation of any of the dwellings and any approved renewable energy supply systems shall be permanently retained & maintained in good working order thereafter.

Reason: To ensure that the development is energy efficient and in accordance with policy ECC SP2 of the Arun Local Plan.

- 13 The secondary lounge window on the north eastern elevation of the building at first floor (flat 3) shall at all times be glazed with obscured glass and fixed shut up to 1.7m from the floor level.

Reason: To protect the amenities and privacy of the adjoining property in accordance with policy D DM1 of the Arun Local Plan.

- 14 All four of the southwest facing bathroom windows within the proposed building are to be glazed with obscured glass.

Reason: To protect the amenities and privacy of future occupiers in accordance with policy D DM1 of the Arun Local Plan.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: A formal application for connection to the public sewerage system is required in order to service this development. To initiate a sewer capacity check to identify the appropriate connection point for the development, please contact Southern Water, Southern House, Sparrowgrove, Otterbourne, Hampshire, SO21 2SW (Tel 033 0303 0119) or www.southernwater.co.uk.

INFORMATIVE: Drainage Engineers advise that Infiltration rates for soakage structures are to be based on percolation tests undertaken in the winter period and at the location and depth of the proposed structures. The percolation tests must be carried out in accordance with BRE 365, CIRIA R156 or a similar approved method and cater for the 1 in 10 year storm between the invert of the entry pipe to the soakaway, and the base of the structure. It must also have provision to ensure that there is capacity in the system to contain below ground level the 1 in 100 year event plus 30% on stored volumes, as an allowance for climate change. Adequate

freeboard must be provided between the base of the soakaway structure and the highest recorded annual groundwater level identified in that location. Any SuDS or soakaway design must include adequate groundwater monitoring data to determine the highest winter groundwater table in support of the design. The applicant is advised to discuss the extent of groundwater monitoring with the Council's Engineers. Supplementary guidance notes are also available on request.

INFORMATIVE: The application is subject to a direct payment of £3484 in order to contribute to the Pagham Harbour Access Management Mitigation Measures.

INFORMATIVE: The applicant is required to obtain all appropriate consents from West Sussex County Council, as Highway Authority, to cover the off-site highway works. The applicant is requested to contact the Area Highway Manager (01243 642105) to commence this process. The applicant is advised that it is an offence to undertake any works within the highway prior to the agreement being in place.

Neil Crowther
Group Head of Planning

Case Officer: Mr S Davis

Date of Decision:

13 February 2019

Arun District Council
The Arun Civic Centre
Maltravers Road
Littlehampton
West Sussex BN17 5LF

IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT

APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 12 weeks of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the
