Dear Mr Davis

Application ref: BR/222/21/PL

Our ref: 369343

Thank you for contacting Natural England regarding the above-mentioned development.

Since this application will result in a net increase in residential accommodation, impacts to the coastal Special Protection Area(s) and Ramsar Site(s) may result from increased recreational disturbance. Your authority has measures in place to manage these potential impacts through the agreed strategic solution which we consider to be ecologically sound.

Subject to the appropriate financial contribution being secured, Natural England is satisfied that the proposal will mitigate against the potential recreational impacts of the development on the site(s). However, our advice is that this proposed development, and the application of these measures to avoid or reduce the likely harmful effects from it, may need to be formally checked and confirmed by your Authority, as the competent authority, via an appropriate assessment in view of the [European Site's conservation objectives](#) and in accordance with the Conservation of Habitats & Species Regulations 2017.

This is because Natural England notes that the recent [People Over Wind Ruling](#) by the Court of Justice of the European Union concluded that, when interpreting article 6(3) of the Habitats Directive, it is not appropriate when determining whether or not a plan or project is likely to have a significant effect on a site and requires an appropriate assessment, to take account of measures intended to avoid or reduce the harmful effects of the plan or project on that site. The ruling also concluded that such measures can however be considered during an appropriate assessment to determine whether a plan or project will have an adverse effect on the integrity of the European site. Your Authority should have regard to this and may wish to seek its own legal advice to fully understand the implications of this ruling in this context.

Natural England advises that it is a matter for your Authority to decide whether an appropriate assessment of this proposal is necessary in light of this ruling. In accordance with the Conservation of Habitats & Species Regulations 2017, Natural England must be consulted on any appropriate assessment your Authority may decide to make.

Natural England has not assessed this application for impacts on protected species. Natural England has published [Standing Advice](#) which you can use to assess impacts on protected species or you may wish to consult your own ecology services for advice.

Yours sincerely

Edwina Hinton

We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

Natural England offers two chargeable services - the Discretionary Advice Service, which provides pre-application and post-consent advice on planning/licensing proposals to developers and consultants, and the Pre-submission Screening Service for European Protected Species mitigation licence applications. These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.

For further information on the Discretionary Advice Service see [here](#)

For further information on the Pre-submission Screening Service see [here](#)
