Subject: 77 Aldwick Road. Ref BR/233/19/PL

It has come to my attention that there is a planning application with you for approval to build 8 Double Bedroom Flats with no parking allocation. For this application I have another reference which is BR/206/19/PL.

There was comment in the local paper last week in which 2 counsellors were trying to encourage residents and visitors to use shops in West Bognor. People are discouraged by the lack of parking and the last thing that shop holders want is more building without car parking.

It is reasonable to assume that some of the occupiers in this proposed development will own cars. It is most unwelcome and the application should be refused unless you put in parking meters to stop residents leaving their cars outside shops all day.
