Subject: BR/237/13/ - 27 Cavendish Road, Bognor Regis

Dear Mrs Chapman

Further to our telephone conversation this morning, I'd like to confirm that the large rooflights shown on the East elevation are for light and ventilation purposes. One of the rooflights shown for Bedroom 3 will also be used as an emergency secondary means of escape. These rooflights will be in the line of the pitch of the roof and will not be accessible, ensuring they can not be used as a walk-out balcony system.

I hope this information is sufficient, please do not hesitate to contact me we any further queries.

Kind regards

Leeza
