Dear Tony,

I have spoken with Daniel about this and I understand the urgency of the your situation. However, you should note that although the application was received on the 25th September, it was not validated/accepted until the 22nd October. Therefore, I am unable to make any decision on the application until after the end of the neighbour consultation period (which expires 29th November). I would suggest that it is likely that a decision will be made during December. If you contact me again after the 29th November then I will be able to give a better idea of precise timescales.

Kind Regards

Subject: Planning application ref BR/253/18/PL

Good morning Simon,

I wonder if you can help please, I put a planning application forward for change of use from A1 to D1 on September the 25th. Having spoken to Daniel Vick, I understand the process to take about 8 weeks. Having reviewed the application yesterday I see that the decision is now not due until mid December. The application is for a brand new NHS orthodontic clinic in the centre of the town serving the wider Arun district. Unfortunately the timescales of the project are incredibly tight and waiting an additional 4 weeks may compromise the project entirely. I wonder if there is any possible way to expedite this important local healthcare application. I can ask the NHS project mobilisation team to support the application if that will help. As of this morning I will need to stand down the building company (due to start 19th November) should this not be possible. I would very much like to discuss this with you as soon as possible.

Kind regards

Tony Rickwood
