Dear Mr Davis & Ms Appleton

Our apologies for the direct approach, but I attach below an email sent to Mr Pardey at Butlins and some photographs, taken from our bedroom windows this morning, which show exactly how very close the conservatory is to all our bedrooms at the apartments of Esplanade Grande.

The applicant, Mr Pardey, is only too well aware of the issues his staff have caused, as residents here have complained to him on numerous occasions throughout the past year about noise emanating from his staff at these properties, along with their loutish behaviour both outside in the street, on the bandstand and from within the Butlin's rented property boundaries.

This has included party gatherings of staff from other Butlin properties in the town who have been witnessed leaving at all hours of the night.

The extended use of the conservatory by 5 hours every single night will only exacerbate the issue and therefore, unless this can be completely soundproofed - which as you can see by the very nature of it's glass construction, it could not - then we would urge you to refuse this application on the grounds of environmental health.

Butlins has its own huge complex where staff could be given a place to gather after work.

The age demographic of Esplanade Grande is retired elderly folk. Most are in bed by 10pm. This would infringe on our civil right to quiet enjoyment of our residences.

We have also added our objection to the Arun Planning site, but are well aware that these carry very little weight.

Thank you for your attention.

Regards

Linda & William Parkes

The EMAIL TO MR PARDEY below and PHOTOS at end of this message

to Jeremy

Dear Mr Pardey

Residents of Esplanade Grande are very disappointed, if not astounded, to learn that you have applied for planning permission to extend the hours for use of the conservatory directly behind our property.

You are well aware that there have been numerous occasions where we have had to complain about the noise emanating from the occupants of your staff accommodation, both from inside and outside the buildings.

Foolishly it seems, we believed and trusted you when you promised you would ensure that disturbance to local residents would be kept to a minimum. Now you plan to increase that by 5 hours every single evening!!!

Obviously there has been no benefit in our keeping complaints between you and us, so if this application is approved, in future, when there is any excess noise from your staff, we will simply call the police.

We have also lodged our comment of disapproval on the application itself, and have informed our other residents here who will no doubt do the same.

Yours truly

Linda & William Parkes

Esplanade Grande
