Subject: BR/263/18/PL Butlins Staff Conservatory

Butlins have put in planning permission to extend the hours of use of the Staff Conservatory behind The Esplanade Grande building until 12 midnight. If the past is anything to go by this means excessive noise, loud singing and parties for a large group of people.

I really do object to this going ahead and why:

My two bedrooms and rear balcony overlook the conservatory which will affect my ability to sleep and my ability to enjoy my balcony in a setting attributable to a residential area.

As you know the Esplanade Grande consists of 51 flats of mostly the older generation many of whom are not in the best of health (including myself with lung cancer). We all purchased our apartments and chose to live in a quiet area befitting our age and health. How can it then be fair to give permission to allow unacceptable noise and singing to go on until midnight is beyond belief.

If this goes ahead then it proves that you really do not have any regard for local residents and just adds to the fiasco of the promenade. Give us a break please!
