Dear Mr Proctor,

Re: Flat 32a, 22 Victoria Drive Bognor Regis PO21 2RL

We understand that you would like permission to change certain windows in your flat to the white UPVC type. In principle there would be no objection, but will be subject to the following conditions:

That the new windows, when in a closed position, and including the glazing will match in design, colour and tint the existing windows.

All costs involved will be your own responsibility, and any work resulting in any banging or noise must be restricted to between the hours of 8am to 5pm weekdays and 8am to 12 noon on Saturdays. No works of this nature may be undertaken on Sundays.

The removal of a window frame can involve the loss of structural support to the main building element. Your window installer must take all precautions to support the ceilings, etc, whilst the old wooden window frames are being removed. We would also point out that when the old wooden window frames are removed, it is quite possible that the installers may well disturb or discard any existing vertical or horizontal flashings that are in-situ to protect the fabric of the building and, of course, stop water penetration.

continued...

If these flashings are removed, you must ensure that they are replaced with a similar type, otherwise you may well experience water penetration once the new window frames are installed. You must realise that you are only reliant on an external mastic sealant to stop water penetrating. Please ensure that your window installers are totally aware of these problems.

There are various health and safety regulations now in force in connection with this type of work and it will be your responsibility to ensure that no damage is caused to either your own flat or the building in general whilst this work is being carried out.

We must ask you to check whether or not planning permission is required by the local authority, therefore it is advisable that you contact them direct to ask for their advice and if planning is required, we will require a copy of the notice.

We must make it quite clear that the installation of any new window frame will not affect your responsibility for the payment of a proportion of the cost of future maintenance, and external redecorations of the property as and when required.

A FENSA registered installation company should be used or Building Regulations must be obtained.

Fees- Parsons Son & Basley will charge a fee of £100 plus VAT (£117.50 inclusive of VAT) for ensuring the above recommendations are carried out and issuing of the Licence.

If you intend to proceed, we will require a cheque as stated above, together with your written acknowledgement of this letter and acceptance of the terms set out therein. This will be necessary before any works may proceed.

We will also require from your window installer a plan showing the design of both the existing windows and the proposed new windows. (This has already been provided by Wizard Windows Southern Limited)

PARSONS SON & BASLEY

P.S. Simon from Wizard Windows Southern Limited would like to speak to you about the window asap. T
