

NOTE:

Where, due to a sloping boundary, the panels need to be stepped, the stepping should be achieved with 8' sections of hoarding with the exception of the centre display section which is to be a 12' section. All steps should be equal wherever possible.

panel sections are to be equally stepped where possible

600mm logo sticker on Correx backing fixed to hoardings with self adhesive pads on every fourth panel

Depth of board to suit slope of ground.

min 100mm black gravel board planted on front of hoardings
Depth of board to suit ground level.
