ARUN DISTRICT COUNCIL TECHNICAL SERVICES No. 30 DEC 2018 ACTION...

Boghar Reges.
West Sussex.

PO 21 2RP.

Dear Sirs,

We wish to object most strongly to the application for planning permission to alter Blakeney Cottage in Sylware Way.

This application will render Blakeney Cottage totally out of keeping with the rest of the houses in Sylware Way. All the other houses are built in red brick with tiled roofs & are of normal height.

This application to raise Blakeney Cottage by one storey & with the addition of cladding & a slate roof will make it stand out like a sore thumb & will alter the whole appearance of a very nice road.

Both back & front gardens have already been cleared of every bush & tree with large diggers. Not a blade of grass remains & what was a quiet oasis - a haven for wild life no longer remains.

The addition of another storey to this house will deprive all the neighbours

back, front & sides of any privacy at all.
This will all be horribly overlooked.

We have always understood that no
work whatsoever should take place before
planning permission is given. This is not
the case here.

Whilst we all welcome newcomers we
fear that these proposals will really have
an adverse effect on this pleasant
neighbourhood, & many of the people living
near by.

Yours sincerely

To Development Control,
Planning Department,
Arun District Council,
Littlehampton,
West Sussex.
