Dear Mr Surman,

I have received the attached consultation response from our Historic Buildings Adviser (HBA) with regard to your application. As you will see, it is not good news – an objection has been raised to the sample. However, regardless of decision, I have to take this discharge of conditions application to the DCC Ctte and the next meeting is 28/01/15. Therefore, you have time to submit a new sample for our consideration. The HBA suggests that you also submit a photo of the existing tiles when submitting new samples.

Please let me know if you wish to collect the current sample tiles, otherwise I will recycle them.

Kind Regards
