Dear Sirs

**Planning Application BR/281/18/PL – 99 Victoria Drive, Bognor Regis, W Sussex**

I write to object to the application of developers to demolish 99 Victoria Drive, Bognor Regis, and replace with 9 flats.

Victoria Drive has changed immensely already due to the increase in multiple occupation buildings i.e. blocks of flats, old peoples' homes, churches playgroups etc. It was originally built in the 1930s as a quiet high class residential road, each house having its own drive and garage for its Fords or Austins.

This wonderful dream has been changed to multiple occupation; regular parking in a narrow road which as a pedestrian one has to take one's life in one's hands to risk crossing. This problem has been made worse by the introductions of 20 mph limit on Hawthorn Road and ramps which has led to previous users of this road using Victoria Drive which has a higher speed limit. A clear case of officials not looking for the resultant effects caused by changes elsewhere. Discussing plans in consultation with local residents is an obvious solution to this. This might make local officials feel that their power and authority are at stake but would be very advantageous to the people of Bognor.

Please look into the doubts outlined above and refuse this planning request and try to retain what is left of the calmness and tranquillity of Victoria Drive that was envisaged by the originals in the 1903s and was a road to encourage people to live out their lives in our wonderful Bognor Regis.

I am 84 years old and hope to do this having known wonderful Bognor since 1936.

Yours faithfully

  
RBB Jones OBE
