Mr Robinson,

I can confirm all of the plans are fine now and have been added to the file.

I also can confirm that a Noise/Extraction Assessment is not needed at this point and can be conditioned.

I only await the Historic Environmental Search is outstanding.

Thank you,
Mrs Johnson

Mr Robinson,

All of the planners are in training all day today and tomorrow so I have not had a chance to speak to anyone about the noise/extraction survey. I will be able to speak to a planning officer on Monday.

I am currently looking through all the plans you sent yesterday and will let you know if anything else is needed.

Thank you,
Mrs Johnson

Morning Daun

I trust you received the planning drawings and Flood report I sent yesterday via WeTransfer.

Can you please advise what is exactly required by the Noise Extraction Assessment to validate the application. Obviously our client does not want to pay a consultant for abortive works so they need to know exactly what is required.

Noise/Extraction Assessment

This application triggers a threshold which requires the submission of a noise/extraction assessment in order to comply with the details set out on the Local Validation Requirements.

Could you also confirm who the Environmental Health officer is for this application?

Look forward to hearing from you soon.

Regards

Simon Robinson - Associate
