RECEIVED

ref No BR/288/17/PL 5.1.18

We wish to object strongly to the above application to the rear of Holmlea, Town Cross Ave.

Since the arrival of C.W. Bilkes, we have had to endure the demolition of the wall at the rear of garden (and neighbours) without any notice and the erection of a high prison style security fence which is noted on Form COM/29/R

There has been continuous bike noise and shouting at all hours.

A security light shines into my bedroom at night, causing myself to wake up

There are bats in the immediate vicinity.

Also the congestion issue in Town Cross Ave would be worse by any extension afforded. Traffic has to turn round due to unloading.

As we understand this is storage ONLY, if this is the case why is a Workshop application involved as do repairs etc

P. T. O ✓

The said buildings have Cement Bonded asbestos on their roof and the side of the office, which needs to be dealt with in a wholly environmental - ly safe manner.

Any height extension (if proposed?) would overlook the neighbouring properties and not be inkeeping in a residential community.

Unfortunately this is not a suitable proposal in our opinion
yours Faithfully
