

Flowering Cherry / Prunus Accolade

Plant Profile

Name: Prunus 'Accolade'

Common Name: Cherry 'Accolade'

Family: Rosaceae

Height: 5-8m

Demands: Tolerant of most soils including chalk

Foliage: Elliptical to a point, yellow-orange in autumn

Flower: Pure pink, semi double in dense clusters

Bark: Smooth red-brown, with vertical lenticels

Size when planted: 1.5-2m

Roofing Material

The left tile is the same as the current roof tile, but they changed colour dramatically over time. Therefore the right tile is the one that has been proposed, as this matches the current tiles more closely, as shown in the picture.

Brick Work

The loose brick is the proposed brick held against the current bricks.
