Site Address: Butlins Upper Bognor Road Bognor Regis PO21 1JJ
Description of works: Erection of temporary enclosed buildings to accommodate performance stage and seating for a period of up to 3 years (January 2021- amended description: plans now include mechanical ventilation system/external plant equipment). Hi

I still object to the planning.

This is based on the fact that the noise pollution coming from the site already is unacceptable.

I have heard all the guarantees of noise levels being monitored, and kept to within the acceptable amount over the last 30 years. Unfortunately it does not happen, it is a waste of time calling Butlin's with a complaint as nothing gets done. I can't think of a single time that the volume was reduced when the excessive volume was reported.

It's all very well for them to produce these fancy graphics showing predicted noise levels to get the planning through, when in reality noise pollution levels for this project are unknown.

Who will monitor the sound levels?

If it is monitored by Butlin's themselves, what is the point.

What guarantees do local residents get ?

Your views as made above will be considered before the application is determined.
