Dear Katherine,

Following our discussion this morning, I have spoken to the client regarding concerns raised by the Environmental Health section on the location of the Disabled WC.

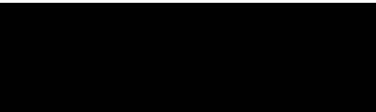

I would stress that the relocation of this facility is integral to opening up the café more than the current layout allows and that the client dearly needs it in the area shown. To that end I have moved the door to the kitchen away from the WC and placed a lobby between the WC and the café area. I hope that this is now acceptable and look forward to receiving confirmation of the fact.

I have also shown where the refuse bins are to be placed and likewise the staff room on the first floor is now a food storage area. Please let me know as soon as possible if there is any other information required.

Kind regards,

Chris Moore.
