I noted on the plans that the disabled toilet is very close to the servery area and the kitchen door with no intervening lobby. I would consider relocation of the toilet as this area is a potential busy traffic area for customers and staff particularly from the kitchen and from customers queuing for the disabled toilet. It also opens out into an area where food is handled. In addition I did not see on the plans where the food is going to be stored because with the original plans there was a large storage room on the first floor. I am happy to discuss the toilet provision standards.
