Dear Mr Temple

I'm writing this email to express my disapproval of planning application BR/298/17/PL.

First of all, we (residents of 136A, 136B, 138A, 138B) haven't seen the poster for the application, even though it has been placed where the footfall is rather high, but the passers by are just workers walking to local business and not the residents. I noticed the yellow sign just by chance taking a different route to Tesco and brought all neighbours' attention to this planning application on Wednesday 7th March 2018.

By reading information online, I understand we are too late to express our concerns, but I hope you will take them into consideration as the application hasn't been approved yet.

We lived at this property since 2009 and heard machinery noise from Sovereign building that is planned to be converted to doggy day care unit. It was rather loud, especially during the summer when windows have been opened at the factory. I can only imagine the noise that dogs are going to make in this vast and extremely echoey building.

I've seen the report from the Environmental Health, and I couldn't agree more with it! I don't want to be hearing dogs barking all day long when I'm in the garden, and working from home, especially they are going to have open spaces for dogs as well.

We have a toddler and planning to have another baby very soon, I don't want to be not able to enjoy our house and garden as we did so far.

Although I agree the unit has to be redeveloped, I urge you not to agree with this application as it will have a massive negative impact to all residents whose gardens back to this building and the car park.

Having dog day care unit at such close proximity will have a impact our quality of life and general.

Looking forward hearing back from you regarding this application and future plans for the site.

Kind Regards

Ausra
