To: Maria Tomalova <Maria.Tomalova@arun.gov.uk>; Planning.Responses <Planning.Responses@arun.gov.uk>
Subject: 9-11 Station Road Bognor Regis PO21 1QD - BR/2/21/PL

Planning Application Reference: BR/2/21/PL

Proposal: Change of use from commercial on ground floor & dwelling on first floor & conversion to the ground floor, first floor, loft & new first floor over the garage area to create bed & breakfast accommodation. This site is in CIL Zone 4 (Zero Rated) as other development.

Address: 9-11 Station Road Bognor Regis PO21 1QD

Dear Maria,

Environmental Health has no objection in principle to the above proposal, however the following matters must be considered:

Noise

No information has been provided assessing the potential noise impact from road traffic or nearby adjacent commercial uses including deliveries and plant / equipment.

I therefore recommend that in order for this section to make an informed comment the applicant should be requested to provide further information assessing the noise impact of the external noise sources on the proposed residential accommodation. The report should include, if appropriate, measures to be taken to mitigate excess noise impact.

The report should be prepared by a person with appropriate acoustic qualifications and should be with full regard to all relevant guidance including BS8233:2014 - Guidance on Sound Insulation and Noise Reduction for Buildings and BS4142:2014 Methods for rating and assessing industrial and commercial sound.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Floor/Ceiling testing above proposed commercial

The sound insulation of the floor / ceiling between the ground and first floor shall achieve a minimum airborne sound insulation value of 50 dB ($D_{nT,w} + C_{tr}$). Before the residential unit is occupied, a test shall be undertaken by a competent acoustician and submitted to the Local Planning Authority to demonstrate compliance with this level.

Reason: To protect the amenity of local residents in accordance with Policy QE SP1 of the Adopted Arun Local Plan 2011 – 2031

Construction

No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to, and approved in writing by, the Local Planning Authority. Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters:

- a) An indicative programme for carrying out of the works;
- b) Details of the arrangements for public engagement / consultation both prior to and continued liaison during the construction works;
- c) Measures to minimise the noise (including vibration) generated by the construction process to include hours of work, proposed method of piling for foundations, the careful selection of plant and machinery and use of noise mitigation barrier(s);
- d) Details of any floodlighting, including location, height, type and direction of light sources and intensity of illumination;
- e) The parking of vehicles of site operatives and visitors;
- f) Loading and unloading of plant and materials, including permitted times for deliveries;
- g) Storage of plant and materials used in constructing the development;
- h) The erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
- i) The provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulations Orders);
- j) Measures to control the emission of dust and dirt during construction;
- k) A scheme for recycling / disposing of waste resulting from demolition and construction works i.e. no burning permitted.

Reason: To protect the amenity of local residents in accordance with Policy QE DM1 of the Adopted Arun Local Plan 2011 – 2031

Construction hours

No demolition/construction activities shall take place other than from 08:00 hours until 18:00 hours (Monday to Friday) and from 08:00 hours until 13:00 hours (Saturday) with no noisy work on Sunday or Bank/Public Holidays.

[In addition to these hours of working, the Local Planning Authority may approve in writing a schedule of activities where it is necessary to conduct works outside the hours specified in this condition]

Reason: To protect the amenity of local residents in accordance with Policy QE DM1 of the Adopted Arun Local Plan 2011 – 2031

Advisory - EV Charging points

To encourage the uptake of zero emission vehicles in efforts to reduce air pollution it is recommended a number of the parking spaces are installed with electric vehicle charging points. Cabling could be installed in the remainder of the parking spaces to allow for additional charging points to be installed at a later stage.

Sincerely, Craig

Craig Milligan
