Dear Simon,

Thank you for the catch up this morning and subsequent clarification emails.

In terms of the query regarding the staircore on the north west elevation facing Hook Lane, I've discussed this with the architectural team who have confirmed that this is a fire escape stair only. The external treatment includes hit and miss cladding with part of the stairs left open. The staircore therefore doesn't form part of the thermal envelope of the building and would not be used for general access.

I note that the Proposed East & South Elevations have not been uploaded to the website and attach this again for ease of reference.

If you have any further questions please let me know.

Jon

Dear Simon,

Thanks for the email and apologies for the missing plan - please find this attached.

Kind regards

Jonathan Pritchard BA MSc MRTPI

Subject: BR/311/18/PL Chichester University

Dear Jonathan,

I have just been comparing the elevations approved by BR/54/16/PL with those proposed by BR/311/18/PL and we appear to be missing Drawing no.

151933_STL_XX_XX_DR_A_ZZZZ_02001_Proposed East & South Elevations. This was mentioned in your covering letter but (having just checked the Planning Portal attachment summary) was not within your portal submission. Can you supply this to me and I'll then get it on our system.

Kind Regards
