Subject: Abbots Lawn - BR/314/18

I have spoken to Mark Warwick and I believe you now have his report.

Following our discussion with him I attach an amended layout taking on board his comments.

I have removed one of the parallel parking spaces to retain the Lime tree which is the only tree that he had concerns other than one in the south-east corner of the site which is not affected.

I have replaced this lost space in the new area in front of the lounge.

Mr Warwick didn't have issues removing the small Oak and Silver Birch although he was concerned with damage to the roots of the other trees during the lowering of ground levels.

I have therefore moved all the new spaces further away from the trees and still detailed the 'Grass Crete' blocks.

I know you have your own issues with the removal of the trees from the street scene however there are still other trees nearer the front boundary providing a natural screen and others of your choice could be planted if required.

Please advise on whether we are now closer to removing your concerns.
