Dear Wilson,

Your application BR/315/18/T is currently set to be refused following comments from the Arboriculturist as attached.

However he has however provided advisory comments as follows:

- Reduce lateral extent by no more than 2m, from its south-east aspect only.
- Crown lift (remove low branches) to achieve no more than 3metres of clearance above ground level, from north-west to south east aspects only (the allotment side).
- Selective removal of epicormic growths from low on the main stem and around the crown-break; thinning to a maximum of 30%.

Please let me know if the advisory comments are acceptable and I can amend the description to be in line with the recommendations and can write it up to recommend approval.

Many Thanks

Charlotte
