Dear Sirs,

I understand that you require as existing and as proposed elevations of the Bickleys Court where affected by the Changes of Use.

You already have these for the works on the ground floor to form 2 new dwellings and I attach a drawing which covers the works to form the remaining 3 Units.

You will note that the one drawing covers both the existing and proposed elevations as **there are no proposed alterations required to the elevations** as a result of these changes of use.

I hope that this covers the remaining outstanding information that you require in order to validate this application.

Regards

Derek Hammond (sending on behalf of the agent Mr Ian Guile)
