Dear Arjan,

I have just sent consultation over on this one but note in the email below that they are applying the vacant building credit. Can you advise therefore whether you agree that there is no affordable housing requirement?

Please note also that the net gain of flats is 17.

Kind Regards

Hi Simon

I am pleased to note that the Economic Development officer welcomes our application and that there are no objections or adverse comments (yet!).

I note that there is a Committee on 13/2/19 – might we make that – or perhaps it can be delegated if there are no objections?

We are looking at the Unilateral Undertaking route to cover the Pagham Harbour contribution so that we can avoid the delay of going through the bank.

Our scheme proposes 27 flats, there are 10 flats lawfully present on site (without implementation of the extant 2017 permission), I assume that we are therefore looking at an increase of 17 flats x an indexed contribution per flat. Can you please advise on the updated figure for the contribution per flat. I note that this totaled £6,968 in September 17 for a net increase of 8 flats, ie £871 per flat. Once we have the figure we can prepare the UU.

You will have seen that paragraphs 7.20 – 7.24 in the submitted Planning Statement set out application of the Vacant Building Credit and that this results in a zero requirement for affordable housing contribution.

I look forward to hearing from you.

Walsingham Planning will be attending PUB19 at the London Olympia Exhibition Centre on the 5th and 6th of February. We will be at stand F84 to discuss all your planning needs, we hope to see you there!

Regards
