

The proposed new staircase glazing will comprise of double glazed powder coated aluminium units having bottom hinged opening units at first and second floor levels. The replacement fire exit door to the south elevation of the south staircase will be a glazed powder coated aluminium door. The powder coating will be coloured to match the existing aluminium windows to the front facade.

Proposed South Staircase - North Elevation

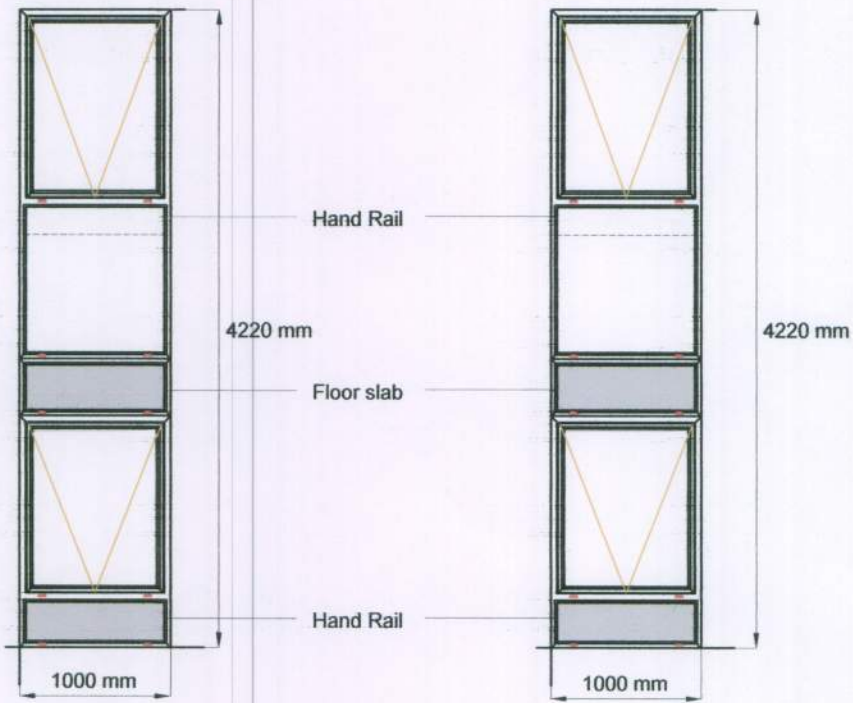

Proposed South Staircase - South Elevation

Existing staircase glazing comprises of single glazed windows set in a painted softwood frame. The south elevation of the south staircase has a painted softwood fire escape door at ground floor level.
