5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species
- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

I would like to fell the liquid amber tree to the rear of my property for a number of reasons.

The roots are currently damaging my drive and we have had a quote for the repair of the damage to the value of £4051.20. This necessary to repair as I have a disabled child who has mobility issues and falls easily on uneven ground. The surveyor did comment that the tree roots would of in his opinion be the cause of the damage.

I am currently awaiting a quote for the wall to be repaired where there has clearly been a soil heave event which has resulted in the cracking of my boundary wall and it is longer straight.

I have received a letter from a neighbors insurance company stating that their Arboriculturalist's has stated although not currently involved in the damage given the species, size and water demand together with the clay soil in the area the tree has the potential to influence her property in the future and if i choose to take no action then they may seek damages from me in the future.

On this note the driveway which sits between our propertys now has a height difference in excess of 20mm. The tree is also leaning and the roots are showing increased buttressing where it is suspected ground has been planted on building spoil, resulting in the lawn area under the tree being forced up to the point that I can no longer cut this with a lawn mower.

I am happy to replant any tree to front of my property where none of these same issues would occur.

6. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

6. Trees - Additional Information

Please note: If none of the proposed work involves trees covered by a TPO, please answer 'No' to the two questions below

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).

1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall ☐ Yes ☐ No

If Yes, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

2. Alleged damage to property - e.g. subsidence or damage to drains or drives. ☐ Yes ☐ No

If Yes, you are required to provide for:

- Subsidence: A report by an engineer or surveyor (to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals) and a report from an arboriculturist to support the tree work proposals.

- Other structural damage (e.g. drains walls and hard surfaces): Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)

Are you providing additional information in support of your application (e.g. an additional schedule of work for question 'Identification of Tree(s) and Description of Works')? ☐ Yes ☐ No

7. Tree Ownership

Is the applicant the owner of the tree(s)? ☐ Yes ☐ No

8. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number

TPO/AW/7/10

9. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent. ☐ Yes ☐ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

10. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them. ☒
