2 Site Address

Car Parking Site Adjacent to
 112 Gravits Lane

 PO21 5LW

3 Description of Development

2 No. 2 bedroom semi-detached houses with associated parking, bin & cycle store.

In pursuance of their powers under this Act and related Orders and Regulations the Council **PERMIT** this development to be carried out in accordance with the application and plans and subject to the following conditions

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby approved shall be carried out in accordance with the following approved plans

Drawing 16/021 30 Rev B "Location Plan & Proposed Site Plan";
 Drawing 16/021 31 Rev A "Proposed Plans & Elevations";
 Drawing 16/021 32 Rev A "Site Section"; and
 Drawing 17056-BT1 "Tree Protection Plan".

Reason: For the avoidance of doubt and in the interests of amenity and the environment in accordance with policy GEN7 of the Arun District Local Plan.

- 3 Development shall not commence until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority.

The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, the recommendations of the SUDS Manual produced by CIRIA.

Winter groundwater monitoring to establish highest annual ground water levels and Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage.

No building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies GEN7 and GEN9 of the Arun District Council Local Plan. This is required to be a pre-commencement condition because it is necessary to implement the surface water drainage system prior to commencing any building works.

- 4 Prior to any construction works taking place or the introduction of any machinery and plant to the site, a pre-commencement site meeting must take place between the Arun DC Tree Officer and the Arboricultural Expert representing the site developers. At this meeting, the protective fencing will be inspected and assessed to verify that it is 'Fit for Purpose' as required under British Standard 5837 and has been erected and positioned exactly as shown on Drawing 17056-BT1 "Tree Protection Plan".

Reason: To comply with BS5837 and the National Planning Policy Framework to ensure that retained trees are afforded due respect and appropriate levels of protection such that their ongoing health and vitality are not compromised so they can continue to enhance the landscape and amenity of the area. This is required to be a pre-commencement condition because it is necessary to ensure that the trees are protected prior to commencing any building works.

- 5 No development above damp proof course (DPC) level shall take place unless and until a schedule of materials and finishes to be used for external walls and roofs of the proposed building have been submitted to and approved by the Local Planning Authority and the materials so approved shall be used in the construction of the building.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of amenity and character by endeavouring to achieve a building of visual quality in accordance with policy GEN7 of the Arun District Local Plan.

- 6 No part of the development shall be first occupied until the car parking has been constructed in accordance with the approved site plan. These spaces shall thereafter be retained at all times for their designated purpose.

Reason: To provide car-parking space for the use in accordance with Arun District Local Plan Policy GEN12 and the National Planning Policy Framework.

- 7 The secure cycle storage shall be implemented in accordance with the approved drawings and thereafter retained in perpetuity unless otherwise agreed in writing with the local planning authority.

Reason: To ensure that adequate and satisfactory provision is made for the parking of bicycles in accordance with policies GEN7 and GEN12 of the Arun District Local Plan.

- 8 If there is deemed to be a need for any Utility Service Route connections to bisect retained tree Root Protection Areas/Zones then prior to their installation a Method Statement prepared by an Arboricultural Expert must be submitted that stipulates how this can be achieved without adverse impact on tree roots. Written approval and confirmation of acceptance of this Methodology must be issued before any works are commenced out on site.

Reason: To comply with BS5837 and to ensure that retained trees are afforded due respect and appropriate levels of protection such that their ongoing health and vitality are not compromised so they can continue to enhance the landscape and amenity of the area. In accordance with the National Planning Policy Framework.

- 9 All tree pruning work must be carried out by an experienced and competent Arborist. Where branches are to be shortened back the final cuts are to be made at the correct angle shown in BS3998:2010 and adjacent to a live bud or lateral.

Reason: In the interests of the trees continued health and vitality and to accord with current industry guidelines and sound arboricultural practice and the National Planning Policy Framework.

- 10 Should any sewer be found during construction works then all development activities within 5m of the external edge of the sewer shall cease and they shall not recommence until full details of the proposed measures to be undertaken to protect the existing public sewer have been submitted to and approved in writing by the local planning authority (in conjunction with Southern Water) and then implemented in accordance with the agreed details.

Reason: To ensure that the proposed development does not result in any damage to the existing foul sewer in accordance with policy GEN9 of the Arun District Council Local Plan.

INFORMATIVE: Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure)(England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in

accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

INFORMATIVE: A formal application for connection to the public sewerage system is required in order to service this development. To initiate a sewer capacity check to identify the appropriate connection point for the development, please contact Southern Water, Southern House, Sparrowgrove, Otterbourne, Hampshire, SO21 2SW (Tel 033 0303 0119) or www.southernwater.co.uk.

INFORMATIVE: Drainage Engineers advise that Infiltration rates for soakage structures are to be based on percolation tests undertaken in the winter period and at the location and depth of the proposed structures. The percolation tests must be carried out in accordance with BRE 365, CIRIA R156 or a similar approved method and cater for the 1 in 10 year storm between the invert of the entry pipe to the soakaway, and the base of the structure. It must also have provision to ensure that there is capacity in the system to contain below ground level the 1 in 100 year event plus 30% on stored volumes, as an allowance for climate change. Adequate freeboard must be provided between the base of the soakaway structure and the highest recorded annual groundwater level identified in that location. Any SuDS or soakaway design must include adequate groundwater monitoring data to determine the highest winter groundwater table in support of the design. The applicant is advised to discuss the extent of groundwater monitoring with the Council's Engineers. Supplementary guidance notes are also available on request.

INFORMATIVE: The application is subject to a direct payment (in lieu of a s106 Pagham Harbour contribution).

Case Officer: Mr S Davis

Date of Decision:

IT IS IMPORTANT THAT YOU READ THE NOTES ATTACHED TO THIS DOCUMENT

APPEALS TO THE SECRETARY OF STATE

If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, and you want to appeal against this planning application decision, then you must do so within 28 days of the date of this notice.

If an enforcement notice is served relating to the same or substantially the same land and development as in your application and you want to appeal against this planning application decision, then you must do so within 28 days of the date of service of the enforcement notice, or within 12 weeks of the date of this notice, whichever period expires earlier.

Otherwise, if you want to appeal against this decision then you must do so within 6 months of the date of this notice.

Appeals must be using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <http://acp.planninginspectorate.gov.uk>

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

PURCHASE NOTICES

If either the local planning authority or the Secretary of State refused permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (that is, where the land is situated in a National Park, the National Park authority for the Park, or in any other case the district council in whose area the land is situated). This notice will require the Council to purchase the owner's interest in the land in accordance with the provisions of Chapter 1 of Part VI of the Town & Country Planning Act 1990.

Please note that this decision notice only relates to matters under the Planning Acts and does not give consent under any other legislation that may apply to the development. You will need to carry out your own checks to determine whether any other consents or permissions are required. For example, the Building Regulations are likely to apply to most developments, and a Highways Licence may be required from West Sussex County Council for any development within the
