Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

This planning application is for the proposed development for a residential conversion of 120 Victoria drive from a seven bed C2 Residential care home into a ten bed C4 House in Multiple Occupation.

The proposed scheme plans to create a total of 10no. 1 bedrooms with their own individual bathroom facilities connected. Each room has been planned in accordance with the Arun District Councils Standards for Houses in Multiple Occupation and in fact all rooms exceed the standards for size and facilities, making each room spacious, with a suitable amount of storage and individual bathroom facilities.

The proposed works will be within the existing footprint of the building. The scheme involves relocating interior walls whilst keeping main load bearing structures, entrances and exits in the same existing location. The new layout makes more efficient use of the plot.

The planned works will intend to keep the existing buildings Victorian style by keeping its external facades fixed. Whilst renewing the existing roof removing all existing chimney breasts.

The new roof will be constructed using similar synthetic slates to the existing laid at a 45-degree angle. The new development would have no effects of overshadowing to surrounding structures and will follow the existing properties style.

The loft conversion would involve building a new dormer window to the rear of the building on the second floor to allow enough head room for the internal stairs allowing access to the loft. The dormer will be accompanied by two Velux windows in the rear pitch on either side to allow ample light into the loft's new bedrooms, with an additional two in the front pitch.

The proposed works will remove the existing garage on the front elevation of the property, creating space for an additional window to the left of the property. This brings a sense of symmetry to the ground floor making the front elevations left side symmetrical to the above first floor and adding extra space to the existing driveway.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
