Subject: FAO Mr S Davis REF: BR/42/18/PL

Dear Mr Davis

Application ref: BR/42/18/PL
Our ref: 241224

Thank you for contacting Natural England regarding the above-mentioned development.

Since this application will result in a net increase in residential accommodation, impacts to the coastal Special Protection Area(s) and Ramsar Site(s) may result from increased recreational disturbance. As your authority has measures in place to manage these potential impacts through the agreed strategic solution, subject to the appropriate financial contribution being secured, Natural England is satisfied that the proposal will mitigate against the potential effects of the development on the site(s) and that the proposal should not result in a likely significant effect.

Natural England has not assessed this application for impacts on protected species. Natural England has published [Standing Advice](#) which you can use to assess impacts on protected species or you may wish to consult your own ecology services for advice.

Natural England and the Forestry Commission have also published standing advice on [ancient woodland and veteran trees](#) which you can use to assess any impacts on ancient woodland.

We recommend referring to our SSSI Impact Risk Zones (available on [Magic](#) and as a downloadable [dataset](#)) prior to consultation with Natural England. Further guidance on when to consult Natural England on planning and development proposals is available on gov.uk at <https://www.gov.uk/guidance/local-planning-authorities-get-environmental-advice>.

Yours sincerely

Kate Mulveagh

We are here to secure a healthy natural environment for people to enjoy, where wildlife is protected and England's traditional landscapes are safeguarded for future generations.

Natural England offers two chargeable services - the Discretionary Advice Service, which provides pre-application and post-consent advice on planning/licensing proposals to developers and consultants, and the Pre-submission

Screening Service for European Protected Species mitigation licence applications. These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.

For further information on the Discretionary Advice Service see [here](#)

For further information on the Pre-submission Screening Service see [here](#)
