Subject: Re 26 Burnham avenue Bognor regis

I object to the planning permission to knock down the house to build 22 flats on the land. It will bring more traffic in a already busy residential road. It bad enough now with everyone parking their cars in both Burnham Ave and sturges road. To go off to work or shopping it is already like a public car park. Even the residents cant park outside their own homes. Also would not fit in with the houses already there. Be a complete eye sore. We dont need any more lovely house demolished for a load of flats.
