Hook lane is a busy thoroughfare already as it is. How a school child hasn't been injured already is a miracle. Hundreds of them use Hook lane to walk or cycle to Felpham school. Any increase in the flow of traffic will make the current safety situation even worse. Enough Cars and vans are can be found parked up the road already from the college students

cars parked at the kerbside restricting visibility for both pedestrians and motorists. The planned development will make the current traffic conditions far worse. The proposed demolition of the existing buildings will involve the use of heavy lorries which themselves increase in the risk of accidents.

The environmental damage is also a major issue. Already flooding is a massive problem as the surrounding area is part of a flood plain. In the winter the gardens along the south side of Hook lane are flooded and the drains cannot cope with deluge,so much so that manholes in the rear of the houses lift and raw sewage flowing down garden.
