

Design and Access Statement

Proposed Wishing Well, Bognor Regis

The Proposed Use:

The proposed Wishing Well is to be used to collect charity money for the local Rotary Clubs charities

The Amount of development:

The development consists of blue powder coated galvanized steel round Wishing Well and supported grey fibreglass roof.

Layout:

The layout of the Wishing Well will sit centre of the two benches against the north wall of the Promenade which will allow wheelchair access and not cause an obstruction to the Promenade.

Scale:

The Wishing Well has a diameter of 800mm and an overall height of 2.5m.

Landscaping:

No new landscaping.

Appearance:

The style and colour of the Wishing Well will blend with the blue and Victorian theme of the Promenade.

Response to context:

The location is suitable for this type of building which would sit comfortably with the seafront location. The Wishing Well will be maintained by the two Rotary Clubs of Bognor Regis.
