Dear Hebe,

We can confirm that the electric vehicle charging point has now been installed at the property this morning in accordance with the approved plans.

Please find attached photographic evidence of the installed unit.

The make and model is a Pod Point 7kW Solo 3S Universal EV Charger.

We trust this addresses the Environmental Health comments, and we kindly request that Condition 6 is now discharged.

Please let us know if any further information is required.

Kind regards
Loreen Brown

Dear Hebe,

Thank you for your email and for the feedback from Environmental Health.

We can confirm that a 7kW EV charging unit (Pod Point Solo 3S Universal) has now been purchased and delivered to site (invoice attached). Installation has been booked with a qualified electrician and is scheduled for 6th May.

We understand the requirement to provide evidence of installation in order to discharge Condition 6, and we expect to be able to submit full installation evidence including photographic evidence and specification details immediately following installation on 6th May.

In light of this, we would be grateful if a short extension could be granted to allow submission of the installation evidence once the works have been completed.

We trust this demonstrates our commitment to complying fully with the condition and look forward to your confirmation.

Kind regards

Loreen Brown

Good morning,

I have heard back from our Ecology Officer and Environmental Health team about your application to discharge conditions 4, 5, 6 and 7 at the address above. The response from the Ecology Officer raises no objection to the proposals, however the response from Environmental Health raises an objection to the discharge of condition 6. Their response is attached.

If you wish to submit additional information to overcome these concerns, I would need to receive this by 8 April.

I look forward to hearing from you.

Kind regards,

Hebe Smith (she/her)
