

Recommendation Report for Works to Tree(s) on trees subject to a Tree Preservation Order (TPO)

REF NO: BR/5/22/T

LOCATION: 36-37
Servite Close
Bognor Regis
PO21 2DE

PROPOSAL: 1 No. Sweet Chestnut (T1) - Reduce 3 lowest branches away from conservatory by 2m.
1 No. Acer (T2) - Crown reduction to height 7m and spread 5m.

SITE AND SURROUNDINGS

DESCRIPTION OF APPLICATION	As above.
TREES	The trees are located to the rear of the property.
SITE CHARACTERISTICS	Dwelling.
CHARACTER OF LOCALITY	Residential.
None.	

REPRESENTATIONS

Bognor Regis Town Council - No Objection:
- Subject to the approval of the ADC Arboriculturist. If approved no work should be carried out if any birds or bats are nesting.

No representation received from nearby occupiers.

COMMENTS ON REPRESENTATIONS RECEIVED:

Noted.

CONSULTATIONS

CONSULTATION RESPONSES RECEIVED:

Tree Officer

The property is affected by TPO Bognor No.18. Having considered the supporting Schedule and Plan I am satisfied that only T1 is a subject of that Order. T2 Acer is not a suitable candidate for a new Order, so we need not consider it further.

Outwardly and from a distance (residents car park rear of 39/40 Servite Close) this tree appears to be in a fine physiological state and assumed to be so in the absence of any evidence provided to the contrary. It has good form and is visually impressive, dominating much of the property's rear garden.

Conclusions:

The work proposed is justified on arboricultural grounds. This specimen tree is to be carefully pruned to maintain reasonable enjoyment of residential property and with respect for natural tree form.

There will be no loss of public amenity on completion of the proposed work.

Recommendation:

I recommend CONSENT is granted subject to the following condition.

COMMENTS ON CONSULTATION RESPONSES:

Comments noted

POLICY CONTEXT

Built Up Area Boundary

TPO

Pagham Harbour Zone B

2km Buffer for Site of Special Scientific Interest

DEVELOPMENT PLAN POLICIES

PLANNING POLICY GUIDANCE:

NPPF	National Planning Policy Framework
NPPG	National Planning Practice Guidance

POLICY COMMENTARY

The above policies are general and, other than online Planning Policy Guidance under references ID 36-090-20140306 and ID 36-091-20140306, are not specific to trees.

DEVELOPMENT PLAN AND/OR LEGISLATIVE BACKGROUND

Section 198 of the Town and Country Planning Act 1990 states:

"If it appears to a Local Planning authority that it is expedient in the interest of amenity to make provision for the preservation of trees.... they may for that purpose make an order"

The works to the trees are to be judged having regard to amenity

OTHER MATERIAL CONSIDERATIONS

It is considered that there are/are no other material considerations to be weighed in the balance with the Development Plan.

CONCLUSIONS

Following the comments from the tree officer, it is recommended consent is approved, subject to the following conditions and informatives.

HUMAN RIGHTS ACT

The Council in making a decision should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as Arun District Council to act in a manner, which is incompatible with the European Convention on Human Rights.

Consideration has been specifically given to Article 8 (right to respect private and family life) and Article 1 of the First Protocol (protection of property). It is not considered that the recommendation for approval of the grant of permission in this case interferes unreasonably with any local residents' right to respect for their private and family life and home, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general interest and the recommendation for approval is considered to be a proportionate response to the submitted application based on the considerations set out in this report.

DUTY UNDER THE EQUALITIES ACT 2010

Duty under the Equalities Act 2010

In assessing this proposal the following impacts have been identified upon those people with the following protected characteristics (age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex or sexual orientation).

The proposal would have a neutral impact on the protected characteristics.

RECOMMENDATION

APPROVE CONDITIONALLY

- 1 Where whole branches are to be removed and final cuts made close to the trunk or branch union they are to be made as shown in Figure 2 of BS3998:2010.

Where branches are to be shortened back the final cuts are to be made at the correct angle shown in BS3998:2010 and adjacent to a live bud or lateral.

Pruning will be applied only to small diameter branches with all final cuts being no greater than 50mm diameter and to achieve a maximum of 2m clearance from building/conservatory.

Reasons: In the interest of the tree's continued health and vitality and to accord with current industry guidelines and sound arboricultural practice.

- 2 **INFORMATIVE:** The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.
- 3 **INFORMATIVE:** This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0345 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before

continuing.
