ACK

BR/60/08 262 HAWTHORN ROAD BOGNOR REGIS

The tree protection plan provided with this application appears to adequately address the protection of the important trees on and adjacent to the development site.

Previous concerns raised by Joe Russell-Wells regarding the proximity of trees on southern and eastern boundaries and their proximity to the proposed building in a previous application (BR/165/06) seem to be satisfactorily addressed in this scheme.

The proposed landscape scheme seems adequate.

Michael Rowland
Landscape Officer
