APPLICATION NO BR 6012 17 April 2012

ACK

K.R

Dear Sir or Madam

Will you please consider my objections to the planning application BR 6012 for a dwelling to be built on the garden of 5 Crescenta Walk Bognor Regis.

① AT the moment in the middle of this garden stands a magnificent OAK Tree with a tree preservation order. I consider the oak to be very important to our environment and would be a great loss to see the tree damaged in any way. Although the application states that the oak tree is to be retained the plan is not to scale, it would not be possible to build the proposed dwelling without damage to the roots & branches.

Also if planning was approved how long before an application was submitted to pollard the oak or cut it down?

② We think the garden plot is too small for a dwelling of this size & is inconsistent with the road & area.

Yours faithfully
