Subject: Planning application BR/65/20T

To The Planning Committee,

May I start by saying, I totally object to the Crown reduction to the beech trees. We have lived in Orchard Way for many years, and have always admired the beauty of these trees, this pleasure is shared by many others, wild life including Thawny Owls.

I would agree that a limb or two to be removed where adjoining the boundary with Orchard Court flats. But to top them would ruin them I feel! I believe these trees have a preservation order on them, and should be saved for future generations.

Regards,

Mr & Mrs B Croucher
