

ADC PARKS & GREENSPACE ARBORICULTURE CONSULTATION

FROM: Ian Brewster TO: Janice Chapman

PLANNING APPLICATION: BR/73/12/T

ADDRESS: 194 Aldwick Road Bognor Regis PO21 2YQ

BRIEF DESCRIPTION: Fell of Monterey Cypress

INSPECTION DATE: 18th April 2012

RECOMMENDATION:

Objection ☒ No Objection ☐ Suggested Conditions ☐

Comment ☐ Recommendation ☐ Abate a Nuisance ☐

Tree Replacement ☐ Dead/Dangerous ☐ CA & Amenity Value ☐

Comments:

The Monterey Cypress is young, with symmetry, healthy and visually prominent within the confines of the applicants stone chipped south facing garden. It is located at a sufficient distance away from the property to be accommodated for many years without the potential for its future growth to cause direct damage to structures. The Monterey Cypress provides the local area with good visual amenity. Shading and falling debris are not good reasons to have a tree with a Tree Preservation Order felled.

Recommendation:

In the absence of sound written justification for its removal from a professional I would object to the request to have the Monterey Cypress felled.

Ian Brewster
Arboriculturist
