

BOGNOR REGIS ALDWICK ROAD SZ 9398 NW 7/10000 Number 16 (White Tower) II House. 1898 by Architect John Cyril Hawes as a seaside house for himself and his brothers. It was built in the form of a tower to overlook the original Rock Gardens and for a sea view. Stuccoed with incised lines to imitate masonry and tiled roof. Tower of 4 storeys, battered to base with 1 triple casement window with leaded lights to each floor. Set back to right hand corner is a narrow staircase tower with gabled tiled roof and slit windows with leaded lights. Doorcase has flat wooden hood supported by 2 grotesque brackets. 2 storey range to rear providing kitchen on ground floor and sitting room on first floor with casement windows. Contemporary wood and glazed lean-to conservatory on left hand side. Interior contains hall with dado panelling and round-headed arches and built in wooden cupboards to sitting room. Dog leg staircase which becomes progressively narrower as it reaches the top. Series of 2 panelled doors and built in sliding sashes.
