Dear Maria,

I am writing to seek your thoughts on the above application. I have noted the consultee responses and a couple of representations received on the Register. We are keen to work constructively with you to resolve and queries or concerns the LPA may have in respect of the proposal.

Just a note on the application description- at registration '(resubmission following BR/206/19/PL)' was added to our description- just to note that the site has changed ownership since the last application- the applicant was not involved in the previous application - this is a new proposal for the site rather than a resubmission of the previous.

Kind regards,
