Subject: 38 bedsits, 41 - 45 Nyewood Lane. BR/86/20/PL

Dear Mr Gibb and planning officer,

I live at 43 Wood Street in Bognor Regis, its an old fishermans cottage built in the 1800's and I enjoy the character of the street and being by the sea.

The planning notice for the 38 bedsits only went up a few days ago and the deadline to oppose this is 7th May. Can you tell me why this went up so late? How are any of the residents going to see the notice when we are to 'stay at home' as per government instruction. We have many elderly residents down our street who aren't ever leaving their homes and stand no chance of seeing the planning notice. Surely all planning applications should be halted until lockdown is over, seems very underhand!

We have a terrible problem with parking in the area and I can be parked 2 or 3 streets away sometimes. Where do they propose another

38 plus residents park with no extra parking places?

If these residents smoke, where will they go? No outside space for them. Loitering will become a problem and bring the area down further. We have had a lot of flats and bedsits built down Richmond Avenue that add to the parking problem and I don't see how we can cope with over 38 residents in such a small place, seems inhumane actually!

I'm sure you can empathise with my position and the many residents that I have spoken to that won't have the time to respond to the application due to short notice given.

Kind regards

Amy Waller
