Hi James,
Further to correspondence with you and Cllr Stanley I wanted to make you aware of the results of my parking survey. These are attached and as you will see there is a very similar pattern. I counted more spaces than the survey identified, 126 spaces (Lambeth: 116). This may be because I was slightly later at 6.45am, as opposed to 5am. However I believe this gives a good indication that the results are accurate enough.

I would like to re-iterate this does not change our view and we would still maintain that using the census car ownership data for the output area, against the number of people, rather than bedsits, provides a worst case scenario of 30 spaces.

WSCC are satisfied the car parking demand can be accommodated by the proposal.

Kind rgds
Alison
