Dear Kathryn

With regards to the planning application for 38 Bassett Road, Bognor Regis, I have noticed that additional information has been added to the online application portal after the closure date of the 11 June 2022, in the form of photos

There is no reference or description as to what these represent. I would suggest is a crude and staged attempt to suggest there is not a parking issue as described in many of the objections.

Please find attached photo evidence of a true reflection of the issues we face. This would only get worse with further development in the area.

Within my photo's, 3 of the vehicles belong to the applicant and are parked there most of the time. To move them to take the staged photos is disproportionate to the true reflection of the issues.

Please confirm you are able to view the evidence and this will be considered as part of the application

Kind regards

Simon willard
49 Victoria Road.
