Reference A

An application has been submitted to Arun District Council for permission to add a 2nd clock face to the clock tower on the south facing side of the building. (Ref B & B1) The clock tower was part of the original building that was erected in 1929 but it wasn't until 1999 that the first clock face was installed on the north facing side of the building (Ref C & C1).

The ICS unit that operates the existing clock is housed inside the clock tower and this unit will be capable of operating a second dial (Ref D). This means it will not be necessary for any interior alterations or works to be carried out.

The proposed 4ft dial will match the existing clock face and is intended to enhance the appearance of the building (Ref E).

Arun District Town Council are the owners of the Town Hall and as such the documentation relating to the ownership is housed with them. We have been unsuccessful in obtaining copies of any of the documentation which has limited our ability to provide background information. However we do know the clock tower itself is of a wooden structure making the installation process very simple and straightforward. The dimensions of the face will be marked out and a jigsaw will be used to remove the area where the face will sit. The whole process can be completed within a day

A small amount of scaffolding will be needed from the flat roof to the turret to facilitate access (Ref F). This will not be at ground level so will not restrict or obstruct pedestrians or vehicles. The clock face will then be connected to the existing ICS unit housed inside the clock tower (Ref D).
