Dear Mr Roberts,

Ref: B/17/11/ The Granary, Wepham

The plot of land has lain derelict for many years and was becoming an eyesore. Mr Tustin bought the land and has created a lovely garden. The proposed hut is small, the materials used to build it in keeping with the area, and it's location at the top end of the site screened by shrubs means that it will not intrude on the landscape or neighbours.

I enclose the planning documents.
