Dear Sirs,

Re notification of request to thin crowns of a tree and reduce height of evergreens within the conservation area of Clapham Village.

I understand that we have to notify your department that we wish to have formative tree work done within our garden at Dogwood House, Clapham Village, BN13 3UU.

I am enclosing a site map showing the location of the proposed work and photographs of the tree (which does not have a TPO) and the evergreen boundary hedge between Dogwood House and our neighbour at 172a The Street(Churston).

We wish to reduce the tree crown and have taken the advice of an arborist (Mr W Hackman) as to the appropriate actions for his team, should there be no objections from your department.

We are also asking for consent to reduce the height of the boundary hedge in response to our neighbour Mrs Nightingale's request to allow more light into her garden. Parts of the boundary are an estimated height of 6.5m. and we are happy to arrange for the desired reductions, given that, again, there are no objections.

Please do not hesitate to contact us should you require more information or wish to arrange a site visit.

I look forward to hearing from your department,

Yours faithfully

Mrs S. Broadbridge
